INSPIRE KEYNOTE: EMBRACING FAILURE

"When we live afraid to fail, we don't take risks. We don't bring our entire selves to the table—so we end up failing before we even begin."

-Abby Wambach

ABBY WAMBACH is a two-time Olympic gold medalist, FIFA World Cup Champion, and the highest all-time international goal scorer for male and female soccer players. An activist for equality and inclusion, Abby challenges others to make failure your fuel, lead from the bench, champion each other, and demand the ball.

She is co-founder of WOLFPACK Endeavor, a training program revolutionizing leadership development for women in the workplace and beyond. Through her fresh, highly personalized approach of identifying each team member as a leader with untapped skills and power that—unleashed—contribute limitless value to the collective group.

She is the author of the #1 *New York Times* bestseller *WOLFPACK: How to Come Together, Unleash Our Power, and Change the Game*, based on her inspiring, viral commencement speech to Barnard College.

VISION KEYNOTE: BUILDING EMPATHY

"Bring people together, and they'll awaken to their common humanity."

-Jamil Zaki

JAMIL ZAKI is a professor of psychology at Stanford University and the director of the Stanford Social Neuroscience Lab. His research examines social cognition and behavior, especially how people connect with, respond to, and care for each other.

Dr. Zaki is an expert in empathy as a practice—something that anyone can build up and get better at over time. His work has proven that whether we are dealing with business, politics, or personal matters, becoming more empathetic creates a more compassionate work culture, enhances our creativity, and bridges differences in a divided world.

In his groundbreaking book, *The War For Kindness: Building Empathy in a Fractured World*, he also tells the stories of people who understand and respond to each other's emotions, fighting for kindness in the most difficult of circumstances.

EVENTS AND CONFERENCE HAPPENINGS

BETWEEN THE SESSIONS

Open Every Day

We know attending conferences is as much about the conversations in the hallways as it is about the education. Stop by our trendy lounge space, listen to some live music, grab a cup of coffee or glass of wine and catch up with some colleagues and friends. Check out the **Continue the Conversation** space, where speakers hang out after their sessions to answer your questions and hear feedback. Check the event app to find out when your favorite speaker will be stopping by.

TACKLING AGEISM

Open Every Day

**Glenarm Plaza, Denver Pavilions
(between 15th & 16th St)**

Stop by our “Tackling Ageism” public exhibit where we will be capitalizing on the adult coloring book trend to encourage local residents to move the Ageism conversation forward. Help us encourage the Denver public to envision a society unbiased about growing older – one which embraces age differences and acknowledges that aging is simply a part of life’s journey. Together, we will tackle this opportunity to make an impact on our broader circle of influence.

RED ROCKS PARK & AMPHITHEATER WELLNESS ACTIVITY

Sunday 8:00 - 11:00 a.m.

This wellness activity celebrates the beauty of the Colorado landscape. A one-mile moderate hike through the surrounding area provides you with a great opportunity to get an understanding of the geological heritage of the region, with rocks dating as far back as 300 million years ago! Learn about this one of a kind concert venue carved out of the rocks and the most famous concerts and performers to grace its stage. Sign up when you register!

FEDERAL LAW PROHIBITS ANYONE BUT REGISTERED USERS WITH HEARING LOSS FROM USING INTERNET PROTOCOL (IP) CAPTIONED TELEPHONES WITH THE CAPTIONS TURNED ON. IP Captioned Telephone Service may use a live operator. The operator generates captions of what the other party to the call says. These captions are then sent to your phone. There is a cost for each minute of captions generated, paid from a federally administered fund. To learn more, visit fcc.gov. Voice and data plans may be required when using Hamilton CapTel on a smartphone or tablet. Hamilton CapTel may be used to make 911 calls but may not function the same as traditional 911 services.
